If you want only one lot out of two or more alternatives, write “OR” between the lot numbers.

You may designate your first choice with an asterisk. In the example below: the bid for priority lot 258 would be carried out first. If that lot is not won, then the bid for lot 123 would be carried out, etc.

Lot No.	Bid	Lot No.	Bid	Lot No.	Bid	Lot No.	Bid	Lot No.	Bid
123	30.00								
OR									
234	25.00								
OR									
258*	45.00								

You may set an upper limit on your total purchases (excluding postage/insurance) by writing your limit in the appropriate space on the bid sheet.

If you set a limit on your total purchases, you may also designate the order your bids will be applied. After completing the bid sheet in the usual manner, on a separate piece of paper, list the lot numbers you are bidding on in your priority order.

Priority Lot #
1. 345
2. 456
3. 123
etc.
