

ANNUAL INDEX 2013-2020

This index to The Canal Zone Philatelist is the seventh annual supplement to the Cumulative Index 1953-2012, undertaken by the CZSG Metro (formerly North Jersey) Chapter. It follows the format used by Charles J. Peterson, Editor, Philatelic Literature Review, as published in the PLR, Vol. 25, No. 2, 1976, pp 71-80.

The index is divided into four sections: Section A - **Internal**; Section B – **Subjects by Scott / CZSG number**; Section C – **General Subjects**; and Section D – **Author Index**. The Author Index generally lists authors alphabetically, with articles chronologically, and includes those with bylines or subtext attributions, but not those reporting regularly on CZ business, e.g. Officers' messages. A careful reading of the Author Index may reveal what you are looking for.

Scott catalog numbers are used as the basic guide; the more detailed CZSG system (numbering, lettering, and decimal points) expands the Scott listings and are taken from the listings in *Canal Zone Stamps* by Plass, Brewster, and Salz rather than the old "Detailed Listing" published in the CZP. This accounts for discrepancies between numbers in the index and in the articles indexed. United Postal Stationery Society (UPSS) catalog numbers are used where appropriate.

Entries are by journal number, colon (:), and page number(s). For example, "35:9,15" refers to an article published in whole number 35 (Vol. 11, NO.2) of the CZP on pages 9 and 15.
